

## ABS Disctags

iDTRONIC's ABS Disctags perfectly fit for the identification of objects in industrial and logistics applications. They are very robust and have been designed for a rough environment.

### Applications:

- Warehouse
- Production
- Logistics

### Product specification:

<b>Diameters :</b>	Ø 22 × 2.4 mm (no centre hole) Ø 30 × 2.1 mm (3 mm centre hole) Ø 50 × 2.1 mm (5 mm centre hole)
<b>Surface:</b>	Opaque
<b>Application temp.:</b>	-40 °C to +75 °C
<b>Colours:</b>	Standard: black
<b>Material:</b>	ABS

### Available 125 kHz systems:

IC Type	Memory	Mode
EM 4100/4200	64 bits	Read-only
EM 4550	1024 bits	R/W
Atmel Temic 5567	224 bits	R/W
NXP Hitag 1	2048 bits	R/W
NXP Hitag 2	256 bits	R/W

### Available 13.56 MHz systems:

IC Type	Memory	ISO
NXP Mifare MF 1S50	1024 bits	14443A (1-3)
NXP Mifare Ultralight	512 bit	14443A
NXP I-Code SLI	1024 bits	15693

**Other IC types available on request!**
